NOTES

- The date the fund started was 18 February 2015. This means the return is for the period 18 February 2015 to 31 March 2015. It does not represent a twelve month return.
- Returns in this statement are after tax at the highest prescribed investor rate (PIR) of tax for an individual NZ resident. Your tax rate may be lower.
- Fund fees are fees charged as a percentage of a member's interest in the fund (i.e. as a percentage of their KiwiSaver account balance). The Annual Management Fee was 0.90% as at 31 March 2015. Please refer to the investment statement dated 18 February 2015 for more information about this and other fees.
- Membership fees are the fixed dollar charges for membership in the KiwiSaver scheme. The membership fee as at 31 March 2015: \$2.50 per member per month (\$30 annually).
- As the fund has not been in existence for the year to 31 March 2014, no fee data is available for that date.
- The period commenced 18 February 2015 and ended 31 March 2015. The membership fees for this example are required to be calculated as at 31 March 2014, therefore a nil value is shown as no membership fees were paid up to 31 March 2014. The actual membership fee for 18 February 2015 to 31 March 2015 would have been \$5. Refer to note 4 in relation to the membership fee rate as at 31 March 2015.
- As at 31 March 2015 the fund had been operating for less than three months.
