As a member of the Mercer Super Trust, you can access Mercer’s Direct Investment service through the Mercer Direct investment option (Mercer Direct). This gives you greater control over your investments. You can trade on the market, monitor your account and generate reports on your portfolio, all conveniently accessed online through your Mercer Super Trust account.
IMPORTANT INFORMATION

This Mercer Direct Member Guide (Guide) should be read in conjunction with the Product Disclosure Statement (PDS) or member kit you received on joining the Mercer Super Trust, together with any other member materials you have received and the terms and conditions available from the Mercer Direct Online section of the secure member website or at www.onevue.com.au/web/onevue/executionpolicy.

The information in this Guide is current at the date of issue and is subject to change. The most recent version will be available through the Mercer Direct Online section of the secure member website.

As you read through this Guide, you may find terms you are unfamiliar with. See the ‘Key terms’ section at the end of this Guide for an explanation of key terms and phrases.

Mercer Superannuation (Australia) Limited is the trustee of the Mercer Super Trust and is referred to as ‘Trustee’ throughout this Guide. The Trustee is the issuer of this Guide.

This Guide contains general information only and does not take into account individual objectives, financial situation or needs. Before acting on this information, you should consider whether it is appropriate to your objectives, financial situation and needs. You should get financial advice tailored to your personal circumstances.

Investment returns or the return of any capital invested through Mercer Direct is not guaranteed and past returns are not a reliable indicator of future returns.

THINGS TO CONSIDER BEFORE INVESTING

The self-directed nature of Mercer Direct means there may be different risks to other Mercer Super Trust investment options, and you should take the time to understand them.

Some issues you should consider before investing in Mercer Direct include:

- What are your investment objectives? Consider your investment objectives and whether Mercer Direct will help meet these objectives.
- Do you have adequate diversification? By spreading your investments across different asset classes, countries and investment managers you can balance the risks and returns according to what you are comfortable with. There is a risk that a lack of diversification can increase volatility.
- Superannuation is a long term investment. Mercer Direct allows you to easily and conveniently buy and sell shares, but it should not be used to attempt to time the market or make short term investment decisions. Frequent trading can also lead to higher costs overall.
- Once you have selected your investments through Mercer Direct, how often will you monitor and compare them against your objectives? As the market changes, will you alter your mix of investments if they no longer meet your objectives?

Mercer Direct puts you in control of choosing and monitoring your investments. This means you are responsible for ensuring your investments represent the mix of investments and objectives that are right for you. The Trustee takes no responsibility for the investment performance or your selected investments.

IT’S GOOD ADVICE THAT MAKES THE DIFFERENCE

Establishing and maintaining your own investment portfolio can be exciting but it’s also complicated. With greater control comes a greater responsibility to understand the nature of your investments, their degree of risk and potential returns.

You should seek advice from a licensed, or appropriately authorised, financial adviser before you make any investment decisions.

A Mercer Financial Adviser can provide you with advice on your investment choices and help you make the most of your finances.

You can speak to a Mercer Financial Adviser over the phone or make an appointment for a face-to-face consultation by calling us or booking online.

USING MERCER DIRECT ONLINE

Mercer Direct Online is the section of the secure member website where you can monitor, transact and manage your Mercer Direct investments.

MERCER DIRECT ONLINE ALLOWS YOU TO:

Buy and sell (place orders) shares and ETFs
You can place orders from the Transact tab to buy and sell shares from your investments list or by entering the share code. See pages 10 and 11 for more information.

Buy term deposits
You can place a request for a term deposit online and if your order is received before 1.30pm (AEST) it will be invested the same day or if your order is received on or after 1.30pm (AEST) it will be purchased on your behalf the next business day. Your details will be updated on the next business day following the request being actioned – refer to page 7 for more information.

View orders
View all your open and pending orders.

Rollover term deposits
You will be notified via email seven days prior to your term deposit maturity or can also view this information in the Action tab. You can decide to rollover your term deposit as is (for the same amount and term) and receive any interest earned to your Cash Hub, or rollover the whole amount (deposit amount and interest) into a new term deposit. Or do nothing and have the full amount paid into your Cash Hub. For more information, see page 14. If you have not placed a term deposit maturity instruction by the cut off time on the day of maturity, then the principal and interest will be redeemed on the maturity date and paid to your Cash Hub.

View your investments and generate reports
A range of reports on your portfolio are available on the Reports tab.

Research shares and ETFs
Investment Research can be accessed from the Research tab.

Access Corporate actions
You can participate in corporate actions and will be notified on those related to your investments in the Action tab.

Confirm transactions
You can view recent transactions online through reports on the Report tab.
RISKS OF TRANSACTING ONLINE

The Mercer Super Trust aims to provide you with uninterrupted access to Mercer Direct Online.

However, the Mercer Super Trust accepts no responsibility (to the extent permitted by law) if the secure member website or Mercer Direct Online are unavailable. The Mercer Super Trust reserves the right to temporarily change, suspend or cancel operations in the secure member website or Mercer Direct Online without prior notice.

DIFFERENCES BETWEEN MERCER DIRECT AND OTHER INVESTMENT OPTIONS

There are some important differences between investing in shares, ETFs or term deposits directly (in your own name) and investing through Mercer Direct. These include:

- All investments acquired through Mercer Direct are held in the Trustee’s name, not in your name. This means you will not receive communications from the issuer of listed securities or term deposits.
- Investment earnings within a super fund (except on exempt pensions) are taxed at 15%, which may be lower than your marginal tax rate. As a result, you may pay less tax on any earnings from term deposits and/or listed securities held through Mercer Direct than you would if you held these investments directly.
- When investing in listed securities and term deposits through Mercer Direct, the Mercer Super Trust’s fees and costs will apply.
- If you invested directly in a term deposit outside of Mercer Direct, you may have the benefit of a 14 day ‘cooling off’ period. The Mercer Super Trust is not entitled to any ‘cooling off period’ as it is considered to be a wholesale investor.
- If you invested directly in listed securities or a term deposit, any queries or complaints you have would be handled directly by the issuer of the equity or term deposit. When you invest through Mercer Direct, any queries or complaints you have will be handled according to the Mercer Super Trust’s enquiries and complaints handling procedures.

All shares and ETFs in Mercer Direct are held by OneVue Wealth Services Limited ABN 70 120 380 627 AFSL 308868 (OneVue) under a custody agreement for the benefit of the Trustee.

You need to agree to the full terms and conditions when you first invest in Mercer Direct, available at www.onevue.com.au/web/onevue/executionpolicy

You should take these differences into account when considering any disclosure document or other information relating to listed securities or term deposits available through Mercer Direct.
CHOOSING THE RIGHT INVESTMENTS

Investing in Mercer Direct is different from the other Mercer Super Trust investment options. Because you choose your own investments your portfolio is likely to be unique. With this greater degree of control comes a greater responsibility to understand the nature of your investments and their ability to generate your intended return and satisfy your desired level of risk.

The table below provides an indicative view of the investments available through Mercer Direct.

<table>
<thead>
<tr>
<th>TYPE OF INVESTMENT</th>
<th>OBJECTIVE</th>
<th>STANDARD RISK MEASURE</th>
<th>MINIMUM SUGGESTED TIMEFRAME</th>
<th>EXPECTED FREQUENCY OF NEGATIVE RETURNS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Shares</td>
<td>Long-term capital growth with some income</td>
<td>Very High</td>
<td>7 years</td>
<td>6 or more years out of every 20 years</td>
</tr>
<tr>
<td>ETFs</td>
<td>Market performance, before fees and charges, of a particular group of assets</td>
<td>High*</td>
<td>7 years</td>
<td>Expected frequency will depend on the profile of the individual ETF and the underlying investment mix#</td>
</tr>
<tr>
<td>Term deposits</td>
<td>An income stream with a very low risk of capital loss</td>
<td>Very Low</td>
<td>1 year or less</td>
<td>Typically a negative return is not expected~</td>
</tr>
</tbody>
</table>

* Risk for ETFs will vary depending on the ETF chosen but, because ETFs are listed, risk can be categorised as ‘High’ or ‘Medium to High’. For more information, refer to the Research tab for any ETF you are considering, through Mercer Direct Online, or read the Product Disclosure Statement on the ETF provider’s website.

# ETFs are traded on the ASX, so the expected frequency can be similar to shares, however diversification within the ETF can reduce volatility. For more information, refer to the PDS on the ETF provider’s website.

~ If you withdraw your investment from a term deposit before the end of the term, the term deposit provider may withhold some or all of the earnings that would have been due had you not withdrawn before the end of the term.

The investment objectives above are only general in nature and are only a guide as to how investments of this nature will typically behave. The characteristics of your chosen investments may be quite different and you or your financial adviser will need to research your individual investments. You can refer to the Investment Profiles available through Mercer Direct Online, and the Product Disclosure Statements for the ETFs which are available on the ETF provider’s website, as well as any other sources.

The information provided in the Research tab of Mercer Direct is from a third party source and the Trustee does not endorse the contents. While we believe the profiles are reliable, the Trustee accepts no responsibility for any errors or omissions.
GETTING STARTED

ELIGIBILITY
To invest in Mercer Direct you must initially have a minimum of $20,000 in other Mercer Super Trust investment options in your account.

You can invest a maximum of 80% of your Mercer Super Trust account in Mercer Direct, and if you are a super member this maximum is subject to a minimum account balance of $5,000 remaining in your other Mercer Super Trust investment options.

Generally, members in the Mercer Super Trust will have access to Mercer Direct. However, if you are a super member with limited or no investment choice, then Mercer Direct will not be available to you.

If you are unsure whether Mercer Direct is available to you, call the Helpline on 1800 682 525 if you are a super member, 1800 671 369 if you are an Allocated Pension member, or login to your Mercer Super Trust account and navigate to ‘Update Your Investments’. If Mercer Direct is available to you it will appear in the list of available investment options.

YOUR EMAIL ADDRESS IS IMPORTANT
Make sure you keep it up to date as it must be provided when switching into Mercer Direct.

MAKING THE SWITCH TO MERCER DIRECT
1. Log in to your account on the secure member website using your employer ID (where applicable), member number and PIN.
2. Click the ‘My investments’ button towards the bottom of your homepage.
3. Choose the amount you want to switch from your current investment option(s) to Mercer Direct.

The switch will be confirmed within 2 business days, and then you can start investing.

The minimum amount you can switch to Mercer Direct in one transaction is $500.

You can switch up to 95% of an individual investment option (as a dollar amount), or nominate the entire balance to be switched.

You will not be able to switch a dollar amount representing less than 5% of an individual investment option to avoid leaving small, residual balances.

Once you have completed a switch and funds have been transferred to your Cash Hub, a ‘Go’ button will appear alongside Mercer Direct under your ‘Current Investments’ list in your online account.

The ‘Go’ button will take you to Mercer Direct Online where you can:
• Check the value of your investments
• Transact in shares, ETFs and term deposits
• Place buy and sell orders (during ASX trading hours)
• View your open orders and order history, and
• View latest research on shares and ETFs.

INVESTMENT LIMITS
If you invest in Mercer Direct, you need to take an active role in managing your investments. You need to monitor your balances to ensure you are maintaining the minimums required to invest in Mercer Direct.

The following investment limits apply to Mercer Direct:
1. You need to maintain at least $500 in your Cash Hub at all times, to cover your transactions and related fees and any taxes.
2. A maximum of 80% of your account in the Mercer Super Trust can be invested in Mercer Direct and if you are a super member this maximum is subject to a minimum account balance of $5,000 remaining in your other Mercer Super Trust investment options.
3. You cannot invest more than 20% of your Mercer Super Trust account in a single share or ETF (no such limit applies to term deposits).
Before deciding to invest in Mercer Direct you should consider whether it is appropriate to your objectives, financial situation and needs. You should get financial advice tailored to your personal circumstances.

**KEEP AN EYE ON YOUR ‘MINIMUMS’**

If you are a super member, you need to ensure you retain the minimum of $5,000 remaining in your other Mercer Super Trust investment options. If you fall below this amount, we will email you with a reminder to top up your Mercer Super Trust account balance. If you don’t restore your account balance to the $5,000 minimum, we will transfer the amount needed from the following sources (in order of priority, until the minimum is restored):

1. Available funds in your Cash Hub.
2. Listed securities in your Mercer Direct portfolio starting with your largest holding.
3. Your term deposits. Withdrawal from your term deposit may result in break fees being charged by the issuer and deducted from your investment.

The amount transferred will be invested in your other Mercer Super Trust investment options according to your investment strategy*.

You will also need to maintain a minimum balance of $500 in your Cash Hub.

Your Cash Hub balance could fall below $500 if your rollover principal and interest for a term deposit, because tax (where applicable) will be deducted from your Cash Hub.

If your account falls below zero, the amount required to return it to the $500 minimum will be deducted from your other Mercer Super Trust investment options according to your investment strategy for future super contributions. If you are an Allocated Pension member, the amount will be deducted proportionate to your investments in the Allocated Pension Division excluding Mercer Direct.

**TOOLS AVAILABLE THROUGH MERCER DIRECT ONLINE**

The service also provides a current summary of your investments as well as a number of online reports. Reports are in the Report tab and are generally updated each weekday (based on data as at the close of the previous business day).

Reports include details of:

- Your overall Mercer Direct balance and the market value of your investments at the previous business day's closing prices
- All your transactions in Mercer Direct
- Details of any income you have received from your investments, including interest on your Cash Hub, and
- Realised and unrealised gains and losses within your investments.

You can also find research on the individual shares listed in the S&P/ASX 300 Index and the ETFs available via Mercer Direct in the Individual Investment profiles*.

The information hasn’t been prepared by the Trustee, but we wanted to share it with you as you may find it useful.

* The information provided in these profiles is from a third party source and the Trustee does not endorse the contents. While they are believed to be reliable, no responsibility for errors or omissions is accepted by the Trustee of the Mercer Super Trust.
### HOW DOES MERCER DIRECT WORK?

#### WHEN CAN I TRANSACT?

Requests received before 4pm on any business day will generally appear in your Cash Hub within two business days. Once your first transfer to Mercer Direct is completed, your Cash Hub will open automatically (accessible via your Mercer Super Trust online account as described on page 8) ready for you to invest in shares, ETFs and term deposits.

<table>

Notes:

1. Delays can be expected due to public holidays, exceptional market conditions, or other unforeseen circumstances that lead to a delay in unit prices being calculated for other Mercer Super Trust investment options.
2. Once cash is available in your Cash Hub, you are able to purchase shares, ETFs and term deposits. Any un-invested cash remains in your Cash Hub.

* Except where systems are unavailable and outside market hours.
YOUR CASH HUB

Your Cash Hub acts as a hub between your Mercer Direct investments and your other investments in the Mercer Super Trust, allowing you to:

• Buy and sell shares, ETFs and term deposits
• Receive income from shares, ETFs and term deposits
• Pay any taxes and charges relating to your Mercer Direct account, and
• Fund transfers from your Mercer Direct account back to your Mercer Super Trust account.

To invest in shares or term deposits you must have sufficient available funds in your Cash Hub to fund the purchase. The available cash balance is calculated as your Cash Hub balance less the $500 minimum cash balance, pending transactions and open orders.

If your Cash Hub balance falls below the $500 minimum balance, we may top-up your Cash Hub by transferring funds from your other Mercer Super Trust investment options outside of Mercer Direct.

About the Cash Hub

The Cash Hub is held through Mercer Super Trust’s custodian for Mercer Direct, OneVue, or its appointed sub-custodians.

Your cash is pooled with other members’ cash and held in the custodian’s name with you as the beneficial owner of your cash amount.

The Financial Claims Scheme (FCS) (commonly referred to as the Australian Government deposit guarantee) guarantees the deposits of account holders up to a limit of $250,000 per account holder per ADI. Your interest in the Cash Hub will not be directly protected by the FCS. However, you may have a pro-rata interest in the Mercer Super Trust’s aggregate cap amount of A$250,000 per account holder, per ADI. Further information can be found at www.apra.gov.au

A buy-sell spread does not apply to the Cash Hub.

The interest that applies to the Cash Hub will be calculated daily and paid to your Cash Hub on a monthly basis in arrears, on or around the 5th business day of the month.

Accrued interest is not reported within your Cash Hub until it is paid.

The interest rate that applies to the Cash Hub is set by OneVue and can vary on a daily basis. Accordingly, there is no guarantee of a particular rate of interest being earned.
THE COSTS OF MERCER DIRECT

Administration fees
A portfolio administration fee of $210 per annum ($17.50 per month) including GST is charged. This fee is deducted monthly from your investments outside of Mercer Direct in accordance with your investment strategy for future super contributions. If you are an Allocated Pension member, the amount will be deducted on a pro-rata basis across all your other investments in the Allocated Pension Division outside of Mercer Direct. The fee will be based on the total number of days in the month your Mercer Direct account has been open.

The portfolio administration fee is indexed annually (in increments of $5 only where the cumulative increase since the previous indexation is $4 or more) each 1 January to Average Weekly Ordinary Time Earnings. The next potential indexation will be 1 January 2020.

An asset-based administration fee of 0.10% per annum of your balance in Mercer Direct will also be deducted from your other Mercer Super Trust investment options each month in accordance with your investment strategy for future super contributions. If you are an Allocated Pension member, the amount will be deducted on a pro-rata basis across all your other investments in the Allocated Pension Division outside of Mercer Direct.

If you are a Corporate Superannuation Division member, your plan’s investment options may have a nil asset-based administration fee for any balance that is above a pre-determined limit as described in your PDS or member kit you received on joining your plan together with any other member materials you have received. If this is the case, your Mercer Direct balance does not count towards that limit.

An estimated expense allowance range of 0.00% pa to 0.05% per annum will be charged on your balance within Mercer Direct. This fee is deducted from your other Mercer Super Trust investments each month in accordance with your investment strategy for future super contributions or if you are an Allocated Pension member, on a pro-rata basis across all your other investments in the Allocated Pension Division outside of Mercer Direct, calculated as the applicable charge times your balance in Mercer Direct on the last day of the month, divided by 12.

Brokerage fee
This fee applies only to members who are invested in the Mercer Direct and have shares and/or exchange traded funds.

A brokerage fee of 0.11% inclusive of GST (subject to a minimum of $22 inclusive of GST) applies to each trade. The brokerage fee will be deducted from your Cash Hub at the time the trade is processed. GST will be applied at this time.

For example, if you invested in Mercer Direct and purchased $90,000 worth of shares, the brokerage charged and deducted from your Cash Hub would be $99 inclusive of GST (being 0.11% of $90,000).

Management fee for Exchange Traded Funds (ETFs)
This fee applies only to members who are invested in Mercer Direct and have ETFs. Fees incurred by the ETF, including management fees, custody costs and other expenses may be deducted from the returns from underlying securities in the ETF. See the Mercer Direct section of the secure member website for a list of available ETFs. See the ETF provider’s website for more information including any fees that may apply.

Term deposit break fee
If you cancel a term deposit before the maturity date, the term deposit provider may withhold some or all of the earnings that would have been due had you held the term deposit to maturity.

See the terms and conditions available at www.onevue.com.au/web/onevue/executionpolicy for more details about any break fees. This document is available through Mercer Direct Online.
Listed securities are investments that represent part ownership of a company or trust. Through Mercer Direct you have access to two main types of listed securities: the shares listed on the S&P/ASX 300 Index and ETFs.

The shares listed on the S&P/ASX 300 Index are the 300 largest Australian shares based on the total value of the shares on issue. These securities make up approximately 80% of the Australian equity market and include financial services companies, manufacturers of consumer goods, energy companies, telecommunications, health care, consumer discretionary, utilities and information technology companies.

ETFs are funds that invest in a number of securities. They usually aim to provide the same returns as a particular index or benchmark by investing in a range of securities that make up that index or benchmark. The index or benchmark may be Australian shares, overseas shares, fixed interest or a commodity.

Members in Mercer Direct can invest in:

- The securities that form part of the S&P/ASX 300 Index at the time their order is placed, and
- A range of ETFs that is determined by the Trustee. The Trustee may vary the list of ETFs available from time to time.

To buy and sell listed securities, you will need to log in to Mercer Direct Online where you can transact directly from the Transact tab. Simply search for the company name or ASX code of the ETF or share you want to buy or sell. You can also access market information about specific listed securities in the Research tab of Mercer Direct Online.

The shares included in the S&P/ASX300 will change over time, particularly those companies with lower market capitalisations. If you purchase shares in a company and it is later replaced in the index, you will not be able to buy more shares in that company but you can continue to hold those shares and sell them when you wish.

For more information on individual ETFs, you can refer to the Research tab (available through Mercer Direct Online), or the Product Disclosure Statement on the ETF provider’s website.

**Types of Listed Securities Orders**

You can place orders as below:

- **Buy Price Limit** – input an amount you will buy that is the maximum per share you want your order to be executed at. Your order will be executed at the input price or below if the order can be met. For buy orders, a hold will be placed on your Cash Hub for your order amount. These funds will remain on hold until the order is either settled or cancelled.
- **Sell Price Limit** – input an amount you will sell that is minimum per share you want your order to be executed at. Your order will be executed at the input price or above if the order can be met.

You also need to specify an expiry date whether it’s:

- **Good for a day** – orders will expire at the end of the trading date.
- **Good unless cancelled** – order will expire 30 days after the order is submitted.
- **Set an expiry date** – order will expire on a specified date.

Trades through Mercer Direct Online will be placed in accordance with the terms and conditions available at www.onevue.com.au/web/onevue/executionpolicy.
TIMING OF ORDERS
Shares and ETFs are valued at their last available trading price on the ASX.

Any orders you request will generally be placed on market once they are confirmed online. This means that as long as the ASX is trading that day, and your order is confirmed online between 10am and 4pm (AEST), it will generally be placed on market as soon as possible, where there is an available and orderly market for that security.

Some ETFs may increase or decrease in price at specific times of the day, due to time differences between the ASX trading hours and the trading hours of the overseas exchanges on which they are listed.

You must hold listed securities before you can sell them (i.e. you cannot sell shares that you have ordered to purchase until the purchase has settled) and if you sell shares they must settle before you can use the cash proceeds to fund another purchase.

BROKERAGE AND TRADE LIMITS
The minimum trade value is $500. When you are buying or selling listed securities you must trade at least $500, unless the value of an investment has fallen below $500. In that case a sale of less than $500 will be accepted.

Brokerage is calculated on the value of your trade and will be added to the price of a buy transaction or deducted from the sale proceeds of a sell transaction. See page 9 for more information on how brokerage is calculated and deducted.

Once you have logged in to Mercer Direct Online you can view confirmations for recent transactions online.

TRADING AND SETTLEMENT
Settlement will usually occur on a ‘trade date +2 business days (T+2)’ basis. The secure member website details will reflect T+2 settlement.

When you submit a request to buy listed securities, money will be reserved to pay for that purchase from your Cash Hub. The money will be deducted from your Cash Hub at the time the order is executed, unless the order is cancelled before the purchase occurs. This is to prevent you from overdrawing your Cash Hub.

When you sell listed securities the proceeds cannot be used for another transaction or transfer until settlement occurs and the proceeds are cleared in your Cash Hub.

WHAT HAPPENS IF AN ORDER IS UNABLE TO BE SUBMITTED OR COMPLETED?
If you request an order that is contrary to the rules of Mercer Direct (for example, if you try and invest more than 20% of your total account balance in a single share), the order will not be able to be submitted.

If an order execution is not completed at your desired price it will remain in the order history until the expiry date or in accordance with the terms and conditions. Once the order is expired it will be purged.

In some circumstances, orders may not be completed or may be purged under the terms and conditions available at www.onevue.com.au/web/onevue/execution policy

INCOMPLETE ORDERS
Your orders may not be completed, or they may be purged from the market in certain circumstances, subject to the rules and regulations of the ASX and the terms and conditions. This could happen if, for example:

• ASX rules and regulations prevent the order from being completed.
• There is no market for that security.
• There has been a suspension or other trading halt on that security.
• A limit order is going to cause a significant change to the market price or trade volumes.
• The price at which an order is placed is deemed to be too far from the prevailing market price, either by the ASX or by OneVue.
• A security is quoted ‘Ex’ as defined by the ASX for the purposes of determining an entitlement to shares, an offer to shareholders, a dividend or distribution payment or for any other reason.
• The trade has been executed in error.
• The trade will or is likely to interfere with the integrity or orderly nature of the market in any way.
• The basis for a security’s quotation on the ASX changes.
• The security has been removed from official quotation on the ASX.
• The security is quoted ‘Ex’ as defined by the ASX for the purposes of determining an entitlement to shares, an offer to shareholders, a dividend or distribution payment or for any other reason.
• The order expires.
• The order has been purged in accordance with ASX rules.
• A trading restriction is imposed on OneVue.
• There has been a disruption in the operation of the ASX, or
• The ASX determines the order should be purged for any other reason.
CORPORATE ACTIONS

From time to time, companies and funds take actions in relation to their shares. These are known as ‘corporate actions’. In a corporate action, members may be given a choice of options and they can choose the option they believe is more beneficial given their own circumstances. This is called an ‘elective’ corporate action. Where investors are not given a choice it is called a ‘mandatory’ corporate action.

When you hold shares through Mercer Direct you will often be able to make an election in the case of an elective corporate action. Complex corporate actions can be delayed while issues, such as capital gains implications, are being considered. This can cause delays in processing the action or paying an associated benefit but the transaction will always be processed at the effective date of the corporate action so that members are not disadvantaged.

You will be advised of eligible corporate actions by email and via Mercer Direct Online where you can make your election. If you do not respond by the due date the action will expire so it’s in your interest to keep your registered email address up to date. If a corporate action results in you increasing your holding of a particular share you might exceed the limit of 20% of your total account balance in that share, or end up with more than 80% of your total balance in Mercer Direct.

The Trustee will not participate in off-market share buy-backs, partly paid shares (instalment receipts), or class actions in Mercer Direct and it reserves the right not to take part in other actions as and when they arise.

PAYMENT OF DIVIDENDS

To be eligible for a dividend you must have purchased the shares before the ex-dividend date.

Dividend or distribution payments will generally be credited to your Cash Hub within a few days of the payment date, which is the date on which a company’s dividend is paid to shareholders or when an ETF’s distribution is paid.

OTHER IMPORTANT INFORMATION ABOUT BUYING AND SELLING LISTED SECURITIES IN MERCER DIRECT

Trading within Mercer Direct will be conducted according to the trading terms and conditions. In particular, you should note that:

You cannot trade in a listed security while it is suspended from trading on the ASX. Normal market rules dictating expiry timeframes for orders will still apply while a listed security is suspended.

Under certain circumstances, if a trade is delayed or not able to be placed, ASX rules may not allow your trade to be placed in part or full.

Where an order cannot be fulfilled at the best prevailing price due to lack of volume in the market, the remaining volume of the order will be executed at a limit price. The order will not be completed until volume becomes available or you adjust the limit price. Please refer to the trading terms and conditions at www.onevue.com.au/web/onevue/executionpolicy

If you hold a security that is no longer part of the S&P/ASX 300 index you may continue to hold that security, receive dividends and act on eligible corporate actions, but you may not purchase more of it (unless it returns to the index). You can sell a security that has fallen outside the S&P/ASX 300 index subject to an available market and orderly market considerations.

Where an ETF is no longer approved by the Mercer Super Trust, you may continue to hold that ETF and receive distribution payments, but you may not purchase more of it. You can sell an ETF that is no longer approved subject to an available market and orderly market considerations.

Execution of orders through Mercer Direct is subject to the terms and conditions. The policy ensures all reasonable steps are taken to deliver the best outcome for each member in relation to the execution and allocation or orders. The terms and conditions are available at www.onevue.com.au/web/onevue/executionpolicy
INVESTING IN TERM DEPOSITS

Term deposits are investments with an interest rate that is fixed for a set term. Generally, term deposits offer a low level of return but they are also less volatile than other types of investments.

Term deposits are purchased through Mercer Direct using available cash in your Cash Hub. At the end of the term, the deposit 'matures' and pays the agreed amount of interest in addition to the amount invested. Any taxes on the earnings from your term deposit will be deducted from your Cash Hub.

CHOICE OF TERM DEPOSITS

The terms available typically range from one month to twelve months. For a current list of the term deposits available through Mercer Direct Online, you should go to the Mercer Direct page of the secure member website. The Trustee may vary term deposit providers and terms from time to time.

OWNERSHIP OF TERM DEPOSITS IN MERCER DIRECT

The term deposits offered through Mercer Direct are held through OneVue or its appointed sub-custodian.

While members receive the benefits of investing in a term deposit (for example, interest payments), they are not the legal owners of the term deposit and do not have any direct rights or interests in it.

The Financial Claims Scheme (commonly referred to as the Australian Government deposit guarantee) guarantees the deposits of account holders up to a limit of $250,000 per account holder per ADI. Because your term deposit may be pooled with other investors, you will be eligible for the FCS guarantee only in the proportion represented by your term deposit when pooled with other investors. Further information can be found at www.apra.gov.au

IMPORTANT: Term deposits are not covered by the Financial Claims Scheme.

GETTING STARTED IN TERM DEPOSITS

Once you have completed a switch and funds have been transferred to your Cash Hub, log into Mercer Direct Online and look for 'Term deposits' in the Transact tab which appears when you first log in. Listed here will be the available term deposits. Click on the 'Term deposit' button and follow the prompts to make your investment.

The minimum amount you can invest in a single term deposit is $5,000, however may be higher depending on the provider, and you may invest all your available cash in Mercer Direct in one or more term deposits, subject to the term deposit provider’s maximum investment and retaining at least $500 in your Cash Hub. For more information on term deposits offered please refer to the terms and conditions available at www.onevue.com.au/web/onevue/executionpolicy

If you do not have sufficient funds to purchase a term deposit and retain at least $500 in your Cash Hub, you will first need to switch money into Mercer Direct or sell other shares or ETFs that you hold within Mercer Direct and make your application again.

Applications for term deposits are generally invested the following business day provided you have sufficient funds in your Cash Hub. Funds will be deducted from your Cash Hub on the day the application is made to the issuer of the term deposit.

You will be notified seven days prior to your term deposit maturity by email and in the Action tab of Mercer Direct Online.
**TERM DEPOSIT INTEREST RATES**
The interest earned on term deposits will be fixed for the term of the investment subject to early termination adjustments.

The interest rate applicable will be available through Mercer Direct Online in the Research tab in the Term deposits section.

The interest rate is set by the issuer of the term deposit and can vary. The interest rate applicable will be the advertised rate on the effective date of your term deposit (refer to page 7 for more information).

The interest earned will be calculated based on the total number of days you are invested in the term deposit.

Any interest you earn from a term deposit will be reported through Mercer Direct Online when it is paid into your Cash Hub.

You can elect for interest on term deposits to be:
- Paid into your Cash Hub upon maturity, or
- Reinvested or rolled over into a new term deposit, together with the principal amount.

**ROLLING OVER A TERM DEPOSIT (MATURITY ELECTION)**
You will be notified via email 7 days prior to your upcoming term deposit maturity. You may choose to roll over the term deposit to a new term deposit for the same term from the same issuer. You can roll over either:
- The principal, or
- The principal plus any interest earned.

The interest rate for the new term deposit will be the prevailing rate at the time of processing the new term deposit application.

You can instruct us to start a new term deposit with the same term by rolling over the principal only or the principal and interest, or have the principal and interest paid to your Cash Hub. If you do not make a selection, the principal plus interest will be paid into your Cash Hub.

If you have nominated to rollover your term deposit principal plus interest, any tax on the interest will be deducted from your proceeds prior to being deposited to your Cash Hub. If this causes your Cash Hub balance to fall below the $500 minimum or if the deduction of any tax on interest reduces your Cash Hub balance to less than $500 minimum, it will be deducted from your other Mercer Super Trust investment options according to your investment strategy for future super contributions (or proportionately across your investment options if you are an Allocated Pension member). You should always check your Cash Hub balance before rolling over a matured term deposit.

**BREAKING A TERM DEPOSIT PRIOR TO MATURITY**
Any request to break a term deposit before the agreed maturity must be made directly to the Mercer Super Trust in writing using the 'Term deposit break request' form.

A request to break a term deposit prior to maturity is subject to the terms and conditions available at www.onevue.com.au/web/onevue/executionpolicy and a notice period and interest adjustment may apply.

The fee for breaking a term deposit prior to maturity will depend on the issuer and may change from time to time without notice. This amount will be deducted from the interest paid to your Cash Hub when you break your term deposit. You should read the terms and conditions issued by the term deposit provider for more information available at www.onevue.com.au/web/onevue/executionpolicy
TAX AND YOUR INVESTMENTS

TAX BENEFITS OF INVESTING IN MERCER DIRECT

Individual tax processing means you benefit directly from any franking credits or capital loss tax benefits attributable to your investments.

If you are in a super account or a taxable Transition To Retirement Allocated Pension* account:
- you will be charged tax progressively at 15% of the gross income earned on your investments.
- Capital gains will be charged tax at 10% or 15% based on the period that you held the investment.
- You may receive an annual taxation adjustment for the tax year ending 30 June, after the tax position of the Mercer Super Trust has been determined.
- Any such tax adjustment will be credited to your Cash Hub and may include tax credits for capital losses and other adjustments relating to your account.

Pension accounts (which are not taxable Transition to Retirement Allocated Pensions) will not be charged tax on their investment earnings but may receive an annual tax adjustment for any franking credits attributable to their account.

All investments in Mercer Direct are made through the Mercer Super Trust. The Mercer Super Trust is a complying superannuation fund that pays tax on its income and capital gains at concessional tax rates and benefits from concessional capital gains treatment, franking credits and other concessions (such as the tax exemption for earnings on eligible pension accounts) subject to meeting certain conditions.

TAX ON INVESTMENT INCOME

For taxed accounts, a provision for tax is raised progressively on the income derived within the fund at a rate of 15%. This includes the following income types; bank interest, term deposit interest, dividends and distributions. The tax amount will be collected from your account at the time the income amounts are processed and held in a bank account until required to be paid out of the fund.

Please note that for Allocated Pension members (who are not in receipt of a taxable Transition to Retirement Allocated Pension) there will be no tax deducted on investment earnings including income received.

The tax impact of components of income and franking credits will be factored into the tax provision at year end and included in the year-end tax adjustment.

* Taxable Transition to Retirement Allocated Pensions:
If you are in a Transition to Retirement Allocated Pension, this pension will not be eligible for tax free investment earnings until you reach age 65 or advise us that you have met one of the other relevant conditions of release, as follows:
- leaving your employer at or after age 60
- retiring permanently from the workforce, or
- becoming permanently disabled or terminally ill.

Up until that time, your pension will be a taxable Transition to Retirement Allocated Pension, with its investment income subject to tax at 15%.
**TAX ON CAPITAL GAINS**
When you sell an asset, a capital gain or loss will be realised. Where a capital gain is realised and the asset has been held for less than 12 months, tax will be deducted at a rate of 15%. Where a capital gain is realised and the asset has been held for greater than 12 months, it will be eligible for the discounted rate of 10%.
Tax will be deducted in the same manner as set out earlier and held in a bank account until required to be paid out.
Any capital gain or loss as the result of a corporate action(s) will be applied during end-of-financial-year processing.
Allocated Pension members (who are not in receipt of a taxable Transition to Retirement Allocated Pension) are not subject to any capital gains tax within Mercer Direct.

**HOW WILL CAPITAL LOSSES BE TREATED?**
As part of calculating your annual tax adjustment, capital losses on the sale of your assets will be applied against capital gains you have realised. At the end of the financial year, where your capital losses exceed your capital gains, the Mercer Super Trust may either:

- Pay a benefit of between 10–15% of all or part of your net capital loss, or
- Carry forward the net capital loss so that it can be used in a future end-of-financial-year tax adjustment.

The ability to pay you a capital loss benefit will depend on the overall capital gains position of Mercer Direct and the Mercer Super Trust.

**FRANKING CREDITS BENEFITS**
Franking credits are attached to dividend payments and represent the amount of tax already paid on a dividend by a company at the company tax rate that, subject to certain conditions being met, represent a credit of tax that can be claimed back by the super fund (which pays tax at the concessional rate of 15%).
The benefit of franking credits will be processed as part of the annual tax adjustment.
Allocated Pension members are also eligible and will share in the benefit of franking credits (including those who do not pay tax on the income they derive).
You must hold shares for at least 45 days before you are eligible for franking credits from any dividends.

**ANNUAL TAX ADJUSTMENTS**
The Mercer Super Trust carries out an annual tax adjustment process for Mercer Direct. These adjustments typically include franking credits, capital losses and allocation of tax components of income and corporate actions received during the year.
This process ensures you get the full benefit of franking credits generated by your individual investments and aligns the financial year tax positions across the investments.
To receive the applicable tax adjustment, you must be a Mercer Super Trust member with the same member account when the end-of-financial-year processing occurs.
If you are eligible to receive a tax adjustment after the end-of-financial year processing has occurred but you are no longer invested in Mercer Direct, the applicable tax credits will be allocated to your Mercer Super Trust account according to your investment strategy for future super contributions, or for Allocated Pension members, proportionate to your non Mercer Direct investments.
If you are eligible to receive a tax adjustment after the end-of-financial year processing has occurred but you are no longer a Mercer Super Trust member, you will lose the benefits of any applicable tax adjustment.
EXITING MERCER DIRECT

If you wish to close your Mercer Direct account you must first sell all your investments made through it. Once all trades have settled and/or term deposits cashed out, and all pending income proceeds available in your Cash Hub, it can be closed.

To exit Mercer Direct you will need to switch your entire balance to your other Mercer Super Trust investment options.

The Cash Hub will remain open until any outstanding dividends or distributions have been received and all corporate actions have been processed.

Once all of these amounts are paid, these funds will be transferred to your Mercer Super Trust account and your Mercer Direct account will be closed.

**Partial payments**

All partial payments will be paid from your Mercer Super Trust account. If there are insufficient funds in your Mercer Super Trust account to process the payment, the payment request will be rejected and you will be asked to re-submit it once you have made sufficient funds available by selling your Mercer Direct investments and switching that resulting cash to your Mercer Super Trust investment options.

**If your plan in the Corporate Superannuation Division is closing**

If you are a Corporate Superannuation Division member and your plan in the Mercer Super Trust is closing and you have an amount invested in Mercer Direct, we will write to you, setting out the particulars of your Plan’s closure and what you need to do in relation to your Mercer Direct investment.

**SERVICE PROVIDERS**

The Mercer Direct Investment service is provided through an arrangement with OneVue Wealth Services Limited ABN 70 120 380 627 AFSL 308868.

Mercer has made references to the names, products and services of service providers with their consent. This consent has not been withdrawn at the date of issue of this Guide.
Below are some key terms you might come across using Mercer Direct.

**Australian Securities Exchange (ASX)**
The primary market for buying and selling shares, ETFs and other publicly listed securities.

**Available cash**
The amount of cash available in your Member Direct Cash Hub in excess of the $500 minimum balance.

**Brokerage**
A fee charged by a broker for the execution of a transaction, such as buying or selling listed securities; expressed as either a percentage of the total value of the transaction or a flat dollar figure.

**Buy or sell order**
When you place a trade to buy or sell shares or ETFs.

**Capital gains tax**
A tax on the increase in the capital value of an investment, payable when the capital gain is realised (i.e. when the investment is sold).

**Corporate actions**
An action taken by a publicly listed company relating to its securities.

**Exchange Traded Fund**
An Exchange Traded Fund (ETF) is a managed fund that tracks a market or sector index and is traded on a securities exchange.

**Franking credit**
Tax credits that are passed on to shareholders who have received franked dividends in relation to their shareholdings. This is also called an imputation credit.

**Index**
An index measures the changes in value of a market or sectors of a market. For example, the S&P/ASX 300 Index (See definition below).

**Listed securities**
An investment instrument (such as shares, bonds or options) that is registered and listed with a stock exchange. For Mercer Direct, this includes shares and ETFs in the ASX300.

**Maturity**
The term of a fixed interest security, such as a term deposit.

**Mercer Direct Online**
The section of the secure member website that provides all the information you’ll need to monitor, transact and manage your Mercer Direct investments.

**Portfolio**
The total basket of investments in a particular option or as chosen by a member. Some investment options may not have all the same asset classes in their portfolio as others.
Rights issues
When raising money from shareholders, a company can opt to do a rights issue. In this instance, existing shareholders have the right to buy a specified number of new shares from the company at a specified price within a specified time. A rights issue is offered to all existing shareholders individually and may be rejected, accepted in full or (in a typical rights issue) accepted in part by each shareholder. Rights are often transferable, allowing the shareholder to sell them on the open market. Rights can be renounceable (can be sold separately from the share to other investors during the life of the right) or non-renounceable (shareholders must either take up the rights or let them lapse). Once the rights have lapsed they no longer exist.

Share
Equity in a company trading on the ASX.

Standard & Poor’s ASX 300 Index
(S&P/ASX 300 Index)
The S&P/ASX 300 Index is recognised as the industry standard for measuring the performance of the top 300 companies in the Australian share market.

Stock code
A unique code used to identify companies listed on the ASX. Also called an ‘ASX code’.
