

FUND UPDATE

MERCER CASH FUND MERCER FLEXISAVER

Quarter ending 31 March 2018

This fund update was first made publicly available on: 1 May 2018.

WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the Mercer Cash fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Mercer (N.Z.) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013.

This information is not audited and may be updated.

DESCRIPTION OF THIS FUND

Invests mainly in cash and short term interest bearing investments. Designed for members who want no exposure to growth assets or where the funds may be required in the shorter term.

| | |
|-------------------------|----------------|
| Total value of the fund | \$422,785 |
| Date the fund started | 9 October 2015 |

WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the Mercer Cash fund:[†]

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.mercerfinancialservices.co.nz/riskprofile.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

[†] A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has less than 5 years of actual returns. The risk indicator may therefore provide a less reliable indicator of the potential future volatility of the fund. For the five year period ending 31 March 2018, market index returns have been used up to 30 November 2015 with actual fund returns used for the balance of the period to 31 March 2018.

HOW HAS THE FUND PERFORMED?

| | Past year |
|--|-----------|
| Annual return¹ <i>(after deductions for charges and tax)</i> | 1.09% |
| Annual return¹ <i>(after deductions for charges but before tax)</i> | 1.54% |
| Market index annual return <i>(reflects no deductions for charges and tax)</i> | 2.02% |

The market index return is the strategic asset allocation weighted benchmark index return, where the benchmark indices are defined in the Statement of Investment Policy and Objectives. Additional information about the market index is available on the offer register.

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2018. Note that market indices reflect no deduction for charges and tax.²

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

WHAT FEES ARE INVESTORS CHARGED?

Investors in the Mercer Cash fund pay fund charges. In the year to 31 March 2017 these were:

| | % of net asset value |
|--|--|
| TOTAL FUND CHARGES | 0.74% |
| Which are made up of: | |
| TOTAL MANAGEMENT AND ADMINISTRATION CHARGES | 0.74% |
| Including: | |
| Manager's basic fee | 0.49% ³ |
| Other management and administration charges | 0.25% ⁴ |
| TOTAL PERFORMANCE BASED FEES | 0.00% |
| OTHER CHARGES | Dollar amount per investor ⁵ |
| Membership Fee | Nil or \$30 |

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Mercer FlexiSaver scheme PDS for more information about Scheme fees. Small differences in fees and charges can have a big impact on your investment over the long term.

EXAMPLE OF HOW THIS APPLIES TO AN INVESTOR

Ben had \$10,000 in the fund at the start of the year and didn't make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of \$109.00 (1.09% of his initial \$10,000). Ben also paid \$30.00 in other charges. This gives Ben a total return after tax of \$79.00 for the year.⁶

NOTES

1. Returns may vary for some investors depending on the fund charges applicable to them.
2. The average annual return is from 30 November 2015.
3. The manager's basic fee varies for some investors including those who joined through an employer based group. Therefore, as one fee rate is not able to be used, the amounts stated have been calculated on an average basis, being the total fees incurred over the average net asset value for the year ended 31 March 2017. The actual fee charged to investors may be higher or lower.
4. Other management and administration charges include the use of average charges which means that the fee applicable to some investors, including those who joined through an employer based group, may be higher or lower. The supervisor and custodian fee included in other management and administration charges has been calculated based on the unit price deduction during the year ended 31 March 2017.
5. Other charges in the form of an administration fee of up to \$2.50 per investor per month (\$30.00 per year) can apply to some investors who join through an employer based group.
6. Returns may vary for some investors depending on the fund charges applicable to them. Returns may also differ for some investors who do not incur the other charges shown.
