

When it comes to super, small incremental steps can make a big difference over time. We're committed to helping you identify and act on the steps that will make a difference to you.

Five steps to getting more out of your super

1. **Find and combine** – if you've got more than one super account, you could be paying multiple sets of fees and insurance premiums while making it harder to keep track of **your** super.
2. **Contribute a little extra** – adding even small, extra amounts to your super can make a big difference over time.
3. **Nominate beneficiaries** – your super balance and insurance cover is likely to be one of your biggest assets, so it makes sense to take a few minutes to plan ahead, potentially making it much easier for those you care about.
4. **Review your investments** – making sure your investment strategy is right for you can have some big pay-offs down the track.
5. **Build your super together** – if you have a spouse, it makes sense to consider your super strategies together.

Meet our exceptional members

Our members are awesome. We're constantly inspired by the exceptional people that make up our membership community and we're sure you will be too.

We asked some of our members to share their stories with us – how they came to be doing what they do, what makes them tick and what their vision is for retirement. Take a few minutes to hear their stories.

Sue (2:14 mins) - inspiring others to become the next best version of themselves

Meet Sue - one of our exceptional members as she shares her journey with Mater and her (long) list of plans for retirement.

Jenni (1:28 mins) - working as a team without that we wouldn't be anything

Meet Jenni - midwife, mother and one of our exceptional members who came into the world at the same time as Mercy Super. She shares her journey with Mater and her plans for retirement.
